***This user page may meet Wikipedia's criteria for speedy deletion*** **because in its current form it serves only to promote or publicise an entity, person, product, or idea, and would require a fundamental rewrite in order to become encyclopedic.** *However, the mere fact that a company, organization, or product is a page's subject does not, on its own, qualify that page for deletion under this criterion. This criterion also does not apply where substantial encyclopedic content would remain after removing the promotional material as deletion is not cleanup; in this case please remove the promotional material yourself, or add the {{advert}} tag to alert others to do so.* **See CSD G11.**

If this user page does not meet the criteria for speedy deletion, or you intend to fix it, please remove this notice, but **do not remove this notice from pages that you have created yourself**. If you created this page and you disagree with the given reason for deletion, you can click the button below and leave a message explaining why you believe it should not be deleted. You can also visit the talk page to check if you have received a response to your message.

Note that this user page may be deleted at any time if it unquestionably meets the speedy deletion criteria, or if an explanation posted to the talk page is found to be insufficient.

**Mohamed Shuaib** is a Maldivian information technology consultant, software developer, and digital transformation specialist known for his work in enterprise IT modernization, cloud infrastructure, insurance systems, and nationwide healthcare software deployment. He has contributed to advancing technology solutions across the insurance, healthcare, automotive, travel, and hospitality sectors in the Maldives.

**Mohamed Shuaib**

## Early life and education

Mohamed Shuaib was born in Addu City, Maldives, and later moved to Malé. He pursued higher studies in information technology, management, and applied computing, developing expertise in IT operations, software engineering, systems administration, and business technology strategy.

# Career

## Information technology leadership

Shuaib has held senior IT leadership roles in multiple Maldivian organizations. He served as the Head of Information Systems and IT Manager at Dhivehi Insurance, where he oversaw IT infrastructure, digital operations, cloud platforms, and the development of enterprise systems.

## Aasandha Company

Shuaib previously worked as the **Head of IT at Aasandha Company**, the national health insurance provider of the Maldives. During his tenure, he led one of the most extensive healthcare IT deployments in the country.

He successfully managed and executed the nationwide rollout of the **Aasandha Vinavi software system** across all inhabited islands of the Maldives. His responsibilities included:

- End-to-end project management of the national deployment.
- Coordinating installation and technical rollout at island health centres and hospitals.
- Overseeing system configuration, testing, and integration.
- Conducting staff training and capacity building across the atolls.
- Ensuring system stability, user adoption, and operational readiness.

The deployment improved service delivery, digital record handling, and accessibility of national health insurance services across the country.

## Digital transformation and systems development

Shuaib has led several high-impact technology modernisation initiatives, including:

- Migration of core insurance applications to cloud environments.
- Development of internal portals and enterprise tools using Laravel, Filament, and Livewire.
- Modernization of multi-branch FortiGate-based network infrastructures.
- Deployment of AWS-hosted applications, backup systems, and disaster recovery frameworks.
- Implementation of digital workflows and process automation systems.
- Development of insurance portals and online policy management modules such as Motor TPL.

### Software development

Shuaib specializes in full-stack development using PHP (Laravel), Next.js, TailwindCSS, MySQL, and modern web frameworks. His software projects include:

- Hospitality reservation and management tools
- Automotive diagnostic applications

### Entrepreneurship

Shuaib is involved in several entrepreneurial and consulting initiatives:

#### Qar – Automotive Solutions

He contributed to the founding and technical operations of Qar, a venture focused on diagnostics, ECU programming, repair solutions, and automobile consultancy.

#### Hospitality and travel technology

He provides technical guidance, system development, and brand support for hospitality projects such as AquaLuna Maldives and guesthouse management systems.

#### Technology consultancy

Shuaib offers consultancy services across IT infrastructure, cloud systems, process digitization, and software engineering.

## Notable projects

Some key projects associated with Shuaib include:

- Nationwide deployment of Aasandha Vinavi System
- Online insurance portal with policy automation
- Multi-branch FortiGate 60F network overhaul
- Disaster Recovery and Business Continuity Frameworks
- Laravel-based inventory and asset management systems
- Hospitality booking and reservation system redesign
- AWS cloud migration of corporate applications

## Skills and expertise

Shuaib's areas of expertise include:

### Technology and development

- PHP, Laravel, Livewire, Filament
- JavaScript, Next.js

- MySQL, SQL, database design
- TailwindCSS and UI/UX prototyping
- API integration and systems design
- Linux servers, Ubuntu, macOS
- AWS and cloud architecture

### Infrastructure and security

- FortiGate firewalls
- ESXi/VMware virtualization
- QNAP NAS systems and backup automation
- Network security and infrastructure hardening
- DR/BCP implementation

### Business and strategy

- IT governance and compliance
- Digital transformation planning
- Vendor management
- Technical documentation and policy development
- Project management and process optimization
